

## INCIDENT REPORT

### TRANSPORT COMPANY

#### Client

Transporter of white goods

#### Event

The client was preparing to transport a load of stoves and fridges.

Thieves brazenly drove two of their own trucks into the client's yard, hooked up two trailers which had just been loaded with white goods and drove out of the yard!

It was only some time later that the client realised that the trailers and goods were missing. This was when they notified the Mtrack Control Room.

The two trailers were successfully located, despite the time delay and the incorrect registration numbers being initially supplied to the recovery team by the client!

However, due to the time interval the cargo was already missing.

The client subsequently reviewed the security procedures at their yard!

#### Value

R300,000 in trailers

**Mtrack** is a self-contained, self-powered, wireless location unit with the best recovery rate in the world – 5 year rolling average of 98.4%!
